

“Cross Flow Instantaneous Design”
Thermaflo Engineering THCS produces
Dry Quality Clean Steam Instantly and
On Demand for All Clean Steam Needs.
Depend on a Tested Proven THCS System
from THERMAFLO ENGINEERING INC

THCS Series Vertical
CLEAN STEAM GENERATOR

- ASME Section 1 Safety Relief Valve
- Internal Steam Separator Baffle Plate for 99% Dry Quality Clean Steam
- 316 Stainless Steel Complete Construction
- Fully Insulated Shell with Metal Jacket Covering
- TDS Preset and Calibrated Control System and Hardware
- Inlet Steam Strainer, Main Drip Trap Furnished
- Electronic, Pneumatic, or Self Acting Clean Steam Control Valves Available
- ASME UB Stamped Construction
- 316 Stainless Steel Continuous Level Indicator and Electronic Controller
- UL Listed Clean Steam Control Panel PID Controls, Alarms and Building Management Communication Interface
- Modulating PID Feed Water Level Control for Precision Level Control
- Float and Thermostatic Continuous Condensate Drain Steam Trap
- Vertical Powder Coated Steel Base Stand Complete with Floor Mounts

Complete Factory Steam Tested
Before Shipment to the Field

ELECTROPNEUMATIC
 PLC VERSION SHOWN

Vertical Space Saving Design
 Horizontal Units Available

Capacities from 100 to 30,000 lbs/hr Outlet Pressures to 150 PSIG

Manufacturing Facilities: 12249 Nations Ford Road Pineville, N.C, 28134
 P.O. Box 473639 Charlotte, N.C. 28247
