

REPLACEMENT ENGINEERING MADE EASY

MODULAR AIR HANDLING UNITS

Our extensive modular central station unit line includes double wall units, horizontal, vertical or blow thru designs and many accessories. These indoor & outdoor Central Station Air Handling Units can be shipped in sections for easy transport through stairwells, elevators & other tight spaces.

VERTICAL & HORIZONTAL FAN COIL UNITS

These vertical and horizontal fan coils, ceiling, wall and room mounted units can be designed to meet any requirement. Special control systems or valve packages included.

BELT DRIVE AIR HANDLING UNITS

Commercial/light Industrial belt drive indoor air handlers from 2 to 20 tons, chilled water or refrigerant cooling, options include hot water or steam heating, mixing box and discharge grills.

EXCEPTIONAL CUSTOMER SERVICE

The professionals at USA Coil will serve you with relevant information to make your build-to-order equipment purchase a low-stress experience. We provide personal service from your first phone call through order delivery. This includes coil selection, a same day quote, concise information on product options, and updates on the delivery schedule.

ON-SITE EVALUATION

USA Coil & Air has a broad network of skilled reps across the United States and Canada. When you have questions in the field, USA Coil & Air is there to provide answers. They can come to your job site and quickly evaluate the situation and provide guidance. Working together with our inside sales team, your rep will provide timely quotes and custom drawings for your approval. Call us today to find a rep in your area.

SUPERIOR CRATING & FREIGHT SERVICE

It's not by chance we have the lowest freight damage in the industry. We continuously analyze our crating process to develop methods that limit all possible damage through freight transport. Custom crates are built around every coil. Why build a superior product to have it destroyed during shipping because the crate falls apart? All of our products ship standard freight allowed. That means no shipping costs for you ever! But our service doesn't stop there. If there is an issue with freight damage, we will help you file the claim.

CUTTING-EDGE COIL SELECTION / SIZING SOFTWARE

USA Coil & Air's coil selection program is the most intuitive and easy to use sizing software application in the industry. Our free software quickly generates performance charts & drawings after just a few steps. And our latest web application makes it even easier. Our in-house sales department is always there to help you with the software. Go to www.usacoil.com and download it today!
